1. Since August there has been an extensive individual call-up of Hungarian reservists, especially for the air force. The recalls were intensified after the harvest, and have affected the age classes from 20 to 40.
2. It is alleged that a mixed Soviet-Hungarian parachute division has been formed, and is in training near Papa.
3. Systematic preparation of munitions depots is proceeding. Large munition magazines are said to be under construction at Kis-kun-Halas, and gasoline and fuel depots at Orkeas, Kis-Bér, and Kisgyőr.
4. The Soviet air force in Hungary is equipped with about 800 planes, mostly fighters and light bombers. Bases are being organized at Sopote Vac (sic), and Faszar (sic). The airports at Debrecen, Matyasfold, Topolca, and Várpalota are in course of repair to enable them to handle heavy bombers.
5. Soviet motorized units, equipped with T-42 tanks, are concentrated near Szombathely in strength approximating one division. Other units, with T-34 tanks, are at Nagykanizsa.
